

Spoken Tutorial Project IIT BOMBAY

1

The salient features of training are as Below:

1. IIT Bombay program is an initiative by Govt. of India to provide platform where learners can **acquire required knowledge and skills**, to enhance their **employability** and **career enhancement**.
2. The Spoken Tutorial is a **Free and Open Source Software** like Linux, Scilab, LaTeX, PHP & MySQL, Java, C/C++, LibreOffice etc. via an easy Video tool .
3. Teachers & students can **master** the software courses on **their own**, in their own campus and at their own time and also **get Certificates**. The method is very suited for **Remote/Distance Education**.
4. Support from IIT Bombay is **available 24x7** through phone, message & e-mail.
5. Students(Rs.200+GST/per course) and for Staff(Rs.500+GST/per course) can **avail** the training.
6. For the development of Students and Faculty members **Institute has taken 1 year Subscription** from IIT Bombay, so no need to pay individually.
