Student overall development.

7. Overview

Kho -Kho ranks as one of the most popular traditional sports in India. The Origin of kho-kho is difficult to trace, but many historians believe, that it is a modified form of “Run & Chase”, which in its simple form involves Chasing and touching a person. Like all Indian games, it is simple inexpensive and enjoyable. It does, however, demand physical fitness, strength, speed and stamina, and a certain amount of ability. Dodging, feinting and bursts of controlled speed make this game quite thrilling to catch by the pursuit-to chase, rather than just run is the capstone of kho-kho. The game develops qualities such as obedience, discipline, sportsmanship, and loyalty between team members. Basketball is a team sport that involves two teams of five active players each trying to score points against one another by throwing a ball through a 300 cm (10 feet) high hoop (the 'basket') under organised rules. It is played on both indoor and outdoor courts. Basketball is a playful activity that also appeals to the intellect and requires the development of team spirit. So we added kho-kho and basketball in sport activity, in our college. For kho-kho total 10 teams and for basketball total 2 teams were participated.

8. Outcome and Benefit in terms of learning/skill/Knowledge

Physical fitness, strength, speed and stamina, and a certain amount of ability, appeals to the intellect and development of team spirit.

9. Remark

The entire days was very joy able to students, they responded willingly to join the activities.

Chess Game Rules

TOUCH MOVE

- The touch move rule applies to all groups.
- When castling, the king shall be touched and moved first. Players will receive a warning for the first violation of this rule. Thereafter, if the rook is touched before the king, castling is not allowed and the rook must move (if legally possible).

CLOCKS

- The time given should be maximum of 15 minutes for each player.

WON GAMES

- A game is won:
 - 1) By checkmate;
 - 2) If the opponent resigns
 - 3) If the opponent runs out of time

DRAWN GAMES

A game is drawn:

- 1) By stalemate;
- 2) By agreement of the players during the game;
- 3) If a player has insufficient mating material (lone K, only K+B, or only K+N) and the opponent runs out of time.

Table Tennis Rules

Playing The Game

A game is started when one player (server) makes a service before the receiver makes the return.

The Server should:

- start with the ball resting freely on an open palm.
- project the ball near vertically upwards, without imparting spin, so that it rises at least 16cm.

- strike the ball so that it touches first his/her court and then, after passing over the net assembly, touches directly the receiver's court. In doubles, the ball must touch successively the right half court of server and receiver.

Once the ball has been served, both players are to make returns until a point is scored. In doubles, each player on the same team must take turns to make the return.

After 2 points have been scored, the receiving player/pair shall become the serving player/pair and so on until the end of the game.

Scoring

A set is when one of the players or pairs first score 11 points. In the event that both players/pairs score 10 points, a set is be won by the first player/pair to gain a 2-point lead. A full match is won when a player or pair wins the best of any odd number of sets

A point is scored when:

1. an opponent fails to make a correct service,
2. an opponent fails to make a return,
3. While playing the game, if the table moves unnecessarily it will be considered as foul.
4. an opponent strikes the ball twice in succession,
5. if an opponent, or anything an opponent wears, touches the playing surface or net during play,
6. if a doubles opponent strikes the ball out of the sequence established by the first server and first receiver.

Time given is only 5 to 7 min per set

Carrom Game Rules

Basic rules

- For the very first turn, the player is allowed three attempts to "break" i.e. disturb the central group of counters.
- It doesn't matter which piece the striker hits first and it doesn't matter if the striker hits no pieces.
- If the striker pockets the Queen and/or one or more pieces of her own colour, the player retrieves the striker and takes another strike.
- If the player pockets no pieces or commits a foul, the turn finishes.

Fouls

A foul is recorded in the following situations:

- The striker is pocketed.
- The striker or any other piece leaves the board.
- A player pockets an opponent's piece. If the Queen was also pocketed, it is returned to the centre by the opponent together with the penalty piece. Any other pieces pocketed in the same strike remain pocketed.
- A player pockets the final opponent's piece. Regardless of whether the Queen has been covered, the opponent's piece is returned to the centre in addition to the penalty piece.
- A player pockets the final piece before the Queen has been covered. In this case both the pocketed piece and a penalty piece are returned to the centre.
- A player contravenes the rules for striking.
- A player touches any piece in play, other than the striker.

Scoring

Queen gives 5 points

Black or White gives 1 point each

Chess Game Rules

TOUCH MOVE

- The touch move rule applies to all groups.
- When castling, the king shall be touched and moved first. Players will receive a warning for the first violation of this rule. Thereafter, if the rook is touched before the king, castling is not allowed and the rook must move (if legally possible).

CLOCKS

- The time given should be maximum of 15 minutes for each player.

WON GAMES

- A game is won:
 - 1) By checkmate;
 - 2) If the opponent resigns
 - 3) If the opponent runs out of time

DRAWN GAMES

A game is drawn:

- 1) By stalemate;
- 2) By agreement of the players during the game;
- 3) If a player has insufficient mating material (lone K, only K+B, or only K+N) and the opponent runs out of time.

Table Tennis Rules

Playing The Game

A game is started when one player (server) makes a service before the receiver makes the return.

The Server should:

- start with the ball resting freely on an open palm.
- project the ball near vertically upwards, without imparting spin, so that it rises at least 16cm.

- strike the ball so that it touches first his/her court and then, after passing over the net assembly, touches directly the receiver's court. In doubles, the ball must touch successively the right half court of server and receiver.

Once the ball has been served, both players are to make returns until a point is scored. In doubles, each player on the same team must take turns to make the return.

After 2 points have been scored, the receiving player/pair shall become the serving player/pair and so on until the end of the game.

Scoring

A set is when one of the players or pairs first score 11 points. In the event that both players/pairs score 10 points, a set is be won by the first player/pair to gain a 2-point lead. A full match is won when a player or pair wins the best of any odd number of sets

A point is scored when:

1. an opponent fails to make a correct service,
2. an opponent fails to make a return,
3. While playing the game, if the table moves unnecessarily it will be considered as foul.
4. an opponent strikes the ball twice in succession,
5. if an opponent, or anything an opponent wears, touches the playing surface or net during play,
6. if a doubles opponent strikes the ball out of the sequence established by the first server and first receiver.

Time given is only 5 to 7 min per set

Carrom Game Rules

Basic rules

- For the very first turn, the player is allowed three attempts to "break" i.e. disturb the central group of counters.
- It doesn't matter which piece the striker hits first and it doesn't matter if the striker hits no pieces.
- If the striker pockets the Queen and/or one or more pieces of her own colour, the player retrieves the striker and takes another strike.
- If the player pockets no pieces or commits a foul, the turn finishes.

Fouls

A foul is recorded in the following situations:

- The striker is pocketed.
- The striker or any other piece leaves the board.
- A player pockets an opponent's piece. If the Queen was also pocketed, it is returned to the centre by the opponent together with the penalty piece. Any other pieces pocketed in the same strike remain pocketed.
- A player pockets the final opponent's piece. Regardless of whether the Queen has been covered, the opponent's piece is returned to the centre in addition to the penalty piece.
- A player pockets the final piece before the Queen has been covered. In this case both the pocketed piece and a penalty piece are returned to the centre.
- A player contravenes the rules for striking.
- A player touches any piece in play, other than the striker.

Scoring

Queen gives 5 points

Black or White gives 1 point each
